

Looking for **relief**
of abdominal discomfort?

UltraFlora® Restore

Clinically tested support for healthy intestinal
microbial balance & relief of occasional diarrhea*

Metagenics®

Genetic Potential Through Nutrition

Targeted Relief for Acute Intestinal Microbial Disruption*

Not all probiotics are the same. Their effects on digestive health are highly strain specific. Now you can offer a more targeted approach to supporting abdominal discomfort, with UltraFlora Restore. UltraFlora Restore provides a clinically tested probiotic blend of 4 highly viable, pure strains of “friendly” bacteria to help support healthy intestinal microbial balance and address occasional loose stools.*

- Backed by a well-designed, randomized controlled trial that demonstrated relief of abdominal discomfort associated with occasional diarrhea*
- Addresses microbial disruption associated with loose stools*
- Each vegetarian, gluten-free UltraFlora Restore capsule provides 10 billion live, “friendly” organisms
- Effective dose in just one capsule daily
- No refrigeration required
- Potency and viability are guaranteed through date of expiration
- Backed by the Metagenics ID Guarantee for purity, clinical reliability, and predicted safety via scientific identification of strains with established health benefits*
