Introduction

Over time, the buildup of toxins from the environment and lifestyle choices can compromise the way our bodies work, and even affect our health. While many people are familiar with the idea of detoxification, there is a great deal of confusion about how to do it safely. For example, trendy water or juice fasting may cause muscle wasting and an increased feeling of fatigue. In order to support liver detoxification function, the body needs macronutrients such as quality protein and carbohydrates, plus specific micronutrients (e.g., vitamins, minerals) that provide targeted nutritional support.

The Clear Change Program enhances the body’s natural metabolic detoxification process while providing adequate fuel for both cleansing and other daily activities—supporting energy metabolism and overall well-being.*
UltraClear® RENEW (or other UltraClear® product recommended by your healthcare provider) provides you with all the nutritional support needed to be successful on the program.*

AdvaClear® capsules provide detoxification and antioxidant support that promotes overall well-being.*

Clear Change Program Components
Recommended by your healthcare provider, this easy-to-follow program will get you on track to feel better and more energized in just 28 days.* Components include:

NOTE: If you currently take a daily multivitamin, other supplements, or prescription medication, please speak with your healthcare practitioner before you make any changes.

Your healthcare provider may also recommend:

**UltraFlora® Balance**

**OmegaGenics® Omega-3s**
A line of purity-tested essential fatty acid formulas available in varying concentrations in liquids, softgels, and chewables to help meet individual preferences and health support needs.*
Support for Success

We are here to support you! Visit our website at www.clearchangeprogram.com and sign up to receive daily tips and extra recipes. You can also view a webinar hosted by a practitioner who will walk you through the program.

Before you get started, please read the guidelines below to ensure your success on this program.

• Use the Eating Guidelines and Recommended Foods List provided as your food guide for the program. Do not make substitutions except those that are recommended by your healthcare practitioner. Be sure to avoid any foods to which you know you are intolerant or allergic.

• If you normally consume significant amounts of caffeinated beverages or simple sugars, we recommend that you gradually decrease these items in your diet before starting the program.

• Be sure to take all of the recommended servings of the supplements. These products contain critical ingredients to nutritionally support your body’s detoxification processes. If you miss a dose of supplements, that’s okay. Just try to make it up within the same day.

• You should not be hungry on the program. Eat as much of the allowed foods as you want unless otherwise directed by your healthcare provider.

• Ensure that you are experiencing a daily bowel movement on this program. Please speak with your healthcare provider to determine if the addition of a fiber supplement, such as MetaFiber®, would be beneficial.*

• Remember to drink at least 2 quarts (64 ounces) of plain, filtered, or mineral water each day.

• Strenuous or prolonged exercise should be reduced during the program as you may be consuming fewer calories than you normally do—your body needs that fuel for detoxification activities.

• The UltraClear product should be consumed within 30 minutes of mixing for maximum benefit. Discard any unused portion.

Snacks & Dressings
Cauliflower Popcorn
(4 servings)
2 Tbsp. olive oil
¾-1 lb. cauliflower
Salt to taste

Preheat oven to 425 degrees. Brush 1 or 2 baking sheets with some olive oil. Cut cauliflower into 1” florets. Toss with olive oil and spread evenly on the baking sheet(s). Roast for about 10 minutes. Shake around or toss with a spoon so that they brown evenly. Roast for another 5 minutes. Taste at this point to see if they are done to your liking. Allow to cool for a few minutes before sprinkling with salt and serving. This may also be served at room temperature.

Kale Chips
(4 servings)
Large bunch of kale
2 Tbsp. olive oil
Sea salt
Curry powder or cumin to taste (optional)

Preheat oven to 425 degrees. Remove kale from stalk, cutting the greens into strips. Place a little olive oil in a bowl, dip your fingers, and rub a very light coating of oil over the kale. Lay the kale on a baking sheet and bake for 5 minutes or until it starts to turn a bit brown. Keep an eye on it; it can burn quickly. Turn the kale over, add a little salt, curry, or cumin to taste, and bake another 5 minutes. Remove and serve.

Tropical Salad
(4-6 servings)
1 avocado, cubed
8 pineapple slices, cubed
1 papaya or mango, cubed

¼-½ Tbsp. water
1 tsp. mustard (any type except Dijon) (optional, but delicious), whisked into liquid for easy mixing
Whole or minced garlic, oregano, basil, or other herbs of choice

Increase recipe for more servings. Mix well in a shaker jar and store any leftovers in your refrigerator.
Keep a jar in the refrigerator at work and one at home for convenience.

Hummus
(6 servings)
16-oz. can low sodium, organic garbanzo beans (chickpeas), or 2 cups home-cooked
½ cup lemon juice
2 Tbsp. olive oil or flaxseed oil
2 cloves of garlic, crushed
Paprika, sea salt, and fresh parsley to taste

Drain beans and reserve liquid. Blend beans with remaining ingredients. If mixture seems dry, add some of the reserved liquid slowly to the blender to make a smooth paste. Garnish with a sprinkle of paprika and parsley.

Baked Apples (or Pears)
(2 servings)
2 small apples or pears
½ cup water (or unsweetened apple/pear juice if permitted)
1½ tsp. cumin
¼ cup tahini (sesame butter)
